

Frisa offers a wide array of nickelbase alloy forgings engineered for maximum performance applications where strength and resistance to high pressure and corrosion are required.

MANUFACTURING CAPABILITIES

HIGH-PERFORMANCE ROLLED RINGS

NICKEL-BASE ALLOYS	Max. O. D.	196 in	4980 mm	
	Max. Height	51 in	1300 mm	
	Max. Weight	11000 lb	5000 kg	

We stock various nickel based grades including: Inconel 600, Inconel 625, Inconel 718 API 6A, Inconel 725, Inconel 800H/HT, Inconel 825, Monel 400, Hastelloy C-276, ideal for manufacturing forged rings used in:

- Downhole tools
- Valves
- Flanges & fittings
- Wellheads
- Mud motors
- Pumps

- Subsea connectors
- Stabilizers & rotary reamers
- Heat exchangers
- Pressure vessels

If you need a specific grade not currently listed, please do not hesitate to contact us, we will gladly work out a solution that will help you and your equipment overcome the harshest challenges.
